

# Would you like to show an employer or college that you are an Adobe Certified Associate? Then get certified!

CERTIFIED  
ASSOCIATE

The Adobe Certified Associate Certification offers three areas in which to gain certification for entry-level skills: Web Communication using Dreamweaver, Rich Media Communication using Flash and Visual Communication using Photoshop. An Adobe Certified Associate has earned a certification that validates entry-level skills needed to plan, design, build, and maintain effective communications by using different forms of digital media.

MCPS students who complete Web site Development and/or Advanced Web Tools are being prepared to pass the Adobe Certified Associate Exams.
